

## Mounting spigot for Double Mount Towel Bars

Use 2 spigots per bar to install ThermoSphere Double Mount Towel Bars with the patented ThermoSphere Mounting System.

- Speed up the installation of ThermoSphere Dual Mount Towel Bars by installing spigots and running wires before tiling.
- Must be installed on a mounting system or to a solid wall substrate before tiling.
- Maximum tiling depth over the spigot is 35mm. This ensures there is enough spigot to fix the towel bar to.
- Use 2 spigots per towel bar - one at each end.

### Technical data

Code	TBSD-800
Compatible with	Double mount bars
Spigot Length	80mm
Spigot diameter	Ø12.7mm
Plate width	30mm
Plate height	65mm
Plate thickness	2mm
Fixing hole centres	48mm
Fixing hole size	M5
Weight	60g
Material	304 Stainless Steel
Warranty	10 years
