

Cable Kits

ThermoSphere Underfloor Heating Cable Kits include premium quality TwistedTwin heating cables and enough fixing tape to complete your installation.

- Simply vary the cable spacing to achieve your desired heating output - minimum spacing 50mm.
- Robust, hard wearing floor heating cable.
- Ideal for irregular shaped areas.

Technical data

Voltage	230V 50Hz
Output	Variable
Total thickness	3.5mm
Area Length	1.0 - 10.0m ²
Cable insulation	FEP and HR-PVC
Protection Rating	IP68
Recommended max temp	29°C (Limited by controls)
Warranty	Lifetime (Online registration required)

Sizes and outputs

Code	Area (m ²) 150W/m ²	Area (m ²) 100W/m ²	Output (W)	Resistance (Ω)
TCK-014-0185	1.0	2.0	185	286
