

Electric Comfort Radiator

The smart new programmable, oil filled electric radiator from ThermoSphere

Energy monitor

Monitors your energy consumption to help you save money on running costs

Smart self-learning

Self-learning adaptive start ensures your room reaches the right temperature at the right time, with minimal energy use

High efficiency design

Each 75mm wide fin creates 150W of heat which is higher than most electric radiators. This gives you more output in a smaller space, increasing efficiency and minimizing the impact on your wall space

10 year warranty

Aluminum body – 10 years for complete peace of mind
Electronics – 3 years or 5 years when you register your product with ThermoSphere

EcoDesign Lot20 Compliant

Good news! Our smart programmable electric radiators are fully compliant with the EcoDesign Lot 20 directive so you can sell and install them with total confidence

SKU	Output (W)	Max Area (m ²)	WxHxD (mm)	Weight (Kg)
TSR-0600	600	6	435 x 580 x 95	11
TSR-0900	900	9	595 x 580 x 95	13
TSR-1200	1200	12	750 x 580 x 95	15
TSR-1500	1500	15	912 x 580 x 95	17
TSR-1800	1800	18	1070 x 580 x 95	21
